August 1, 2017

Dear Robbinsdale Middle School families,

The school year is fast approaching and the district’s transportation department would like to keep our families informed about their student’s transportation information.

As in the past, students who live in the Plymouth Middle School attendance area and attend Robbinsdale Middle School for the STEM magnet program are eligible to receive transportation. Students who live in the PMS attendance area will take a direct route from their neighborhood to RMS in the morning.

In the afternoon, your student will take a shuttle bus from RMS to PMS. They will ride a neighborhood route home with their peers. Shuttle service will not be provided for students not enrolled in the magnet program programs.

If your child is eligible for transportation, bus information will be available in the Parent Portal in mid-August, and you will receive a postcard in the mail with the bus stop and pick-up times for your student.

If you have any questions, email transportation@rdale.org or call the transportation department at 763-504-8107.

We wish you and your child(ren) a safe and successful school year.

Sincerely,

Jerry Anderson
Transportation Manager
