

BUDGET OVERVIEW

The Robbinsdale Area School District's fiscal year commences July 1 of each year, which is consistent with most school districts and is law in Minnesota. The School Board, by law, must have a budget adopted for the upcoming fiscal year prior to July 1.

The budget sets forth the financial plan for the forthcoming fiscal year. It is based on the projected financial needs of the District, and serves to allocate limited resources in the best possible way to provide the best educational opportunities to students.

FINANCIAL STRUCTURE

The financial activity of the District is accounted for in several funds. Each fund is an independent accounting entity having its own set of accounts, assets, liabilities, fund balances, revenues and expenditures. The Budget, approved by the School Board, reports on the following funds: General, Capital Expenditure (General Fund), Child Nutrition, Community Service, Building Construction and Debt Service.

GENERAL FUND

The General Fund is used to account for K-12 educational activities, instruction and student support programs. Administrative, operational, building maintenance and legal expenditures not specifically designated to be accounted for in any other fund are also recorded within the General Fund.

Transportation Services

The General Fund is also used to show all financial activities of the District's pupil transportation program. Chargebacks will be made against other operating funds when appropriate.

Capital Expenditures

Revenue for total operating capital and the capital lease levy must be recorded in the reserve for operating capital in the General Fund. Revenue for Health and Safety through Long Term Facilities Maintenance (LTFM) funding must be recorded in the LTFM reserve in the General Fund. Revenue and expenses from the Technology Levy are also recorded in the appropriate reserve in the general fund.

Proceeds from the sale or exchange of school buildings or real property must be used according to the requirements of M.S. 123.36, Subd. 13. This statute permits deposit of the proceeds in the Reserve for Operating Capital in the General Fund.

CHILD NUTRITION FUND

The Child Nutrition Fund is used to record financial activities of a school district's food service program. Food service includes preparation and service of milk, meals and snacks in connection with school and community service activities.

All expenditures relating to meal preparation must be recorded in the Child Nutrition Fund. Eligible expenditures include application processing, meal accountability, food preparation, and meal service.

COMMUNITY SERVICE FUND

The Community Service Fund is used to record all financial activities of the Community Service program.

The focus of Community Education is enrichment programs for any age level that are not part of the K-12 education program. Community Education programming may also include K-12 summer school enrichment activities which, although educational in nature, are not for credit and are not required for graduation. A district may spend up to 10 percent of its community education revenue (levy, aids and fees) to purchase or lease computers and related items, equipment for instructional programs and library books used exclusively for community education.

BUILDING CONSTRUCTION FUND

The Building Construction Fund is used to record all operations of a district's building construction program that are funded by the sale of bonds or by capital loans. Revenues and expenses relating to the District's state approved Long Term Facility Maintenance (LTFM) Program are recorded in this fund when bonds have been issued for project costs or if a single project cost is \$2,000,000 or greater using pay-as-you-go LTFM levy.

Construction costs for buildings and additions consist of the following: expenditures for general construction, advertisement for contracts, payments on contracts for construction, installations of plumbing, heating, lighting, ventilation and electrical systems, expenditures for lockers, elevators, and other equipment, architectural and engineering services, paint and decorating expenses, and any other related costs. Also included are the costs of floating the bond issue in this fund by reclassification from the General Fund.

DEBT SERVICE FUND

The Debt Service Fund is used to record revenue and expenditures for a school district's outstanding bonded indebtedness, whether for building construction or operating capital, and whether for initial or refunding bonds.

When a bond issue is sold, the school board must levy a direct general tax upon the property of the District for the payment of principal and interest. The revenue from such a tax and related state aid must be separately accounted for in a Debt Service Fund.

Pupil Units-The district has projected annual average daily membership served to be 12,092 for the 2018-19 school year. The average daily membership (ADM) is based upon enrollment and is the basis for the calculation of general education aid.

ADM calculates actual “membership time” rather than simple enrollment counts at a given point in time. This also includes the net impact of “open enrollment” agreements with other Minnesota districts.

ADM includes students who leave the district through tuition agreements and excludes students who enter the district with a tuition agreement.

Projected enrollment for the 2018-19 school year:
